

**PRIME  
FRESH  
PRODUCTS**

# **VALUE BEYOND BOUNDARIES**

Experience and knowledge combined  
to develop the best products  
for retail chains in the U.S.A.

## Our Story

Our experience began in 1999 under the name Anthem Flowers, during our early years, we began importing flowers to the United States of America. Our 19 years of experience have positioned us among the best suppliers and placed our high quality products in the most prominent distributors and supermarkets in the US.

After joining years of experience and a vast knowledge in logistics, acquired throughout time with Prime Group, a group of enterprises dedicated to international logistics services, we created Prime Fresh Products. Knowledge, expertise, and a direct relationship with decision makers allow us to find the shortest commercial route for ideal product placement.

## Prime Fresh Products

Prime Fresh Products understands the barriers keeping some of the world's best products out of the US market aren't about quality; they are about the inefficiencies of a convoluted supply chain. We use the resources of our sister companies in Prime Group and market knowledge from multiple industries to get the best products in the right hands quickly and efficiently.

## Products

- Vegetables
- Fruits
- Olives
- Snacks
- Frozen Plantains
- Hearts of Palm
- Quinoa Cereal

# Our Offices

## Miami, New York & Los Angeles

Our Miami office is an easy point of contact for logistics management across the globe and a convenient hub for Latin American imports. Our New York Hub provides the best cold chain management and refrigerated trucking service in the Tri-State area and Eastern Canada. The Los Angeles office coordinates across the west coast and manages Asian imports.

## Bogota & Quito

Our Colombia and Ecuador offices closely supervise the action on the ground throughout Latin America and have decades of experience handling perishables, which make up a significant portion of the market.

More than 100 channels  
cover the North American territory  
and place your product  
within reach of over  
300 million consumers.
